This Public Guidance and Signage catalog is one of three all-inclusive catalogs. Our complete catalog set consists of Public Guidance Systems, Hospitality Fixtures and Railing Components

Lavi Industries was founded in 1979 for the purpose of producing architectural products that meet the highest quality standards for commercial and retail environments. Our superior products are achieved through uncompromised design and manufacturing, using the highest quality materials available. We serve our broad customer base from our corporate headquarters in Valencia, California, our East Coast manufacturing and distribution facilities in Brewster, New York, as well as satellite sales offices in Texas and Illinois.

We have one of the largest on-hand inventories in the industry enabling us to efficiently serve our customers in today's demanding marketplace. We take pride in our outstanding customer service, skilled sales and operations staff who all ensure the satisfaction of our customers.

The products in this catalog are continuously being developed and improved upon. Specifications, data and dimensions may change without notice. When these specifications or colors are critical, consult factory for current information.

Product Innovation

Engineered for

the Real World.

Portable Traditional Posts

Beltrac® 3000 Posts

Innovation. Safety. Choice. Value.
Built into every Beltrac® product.

- **Structural Integrity**
 The Beltrac post is constructed of a continuous extrusion attached to a weighted steel base.
- **4-way Connection**
 Each Beltrac post is equipped with an imbedded 4-way post-to-post connection.
- **Slow Retraction**
 All Beltrac posts feature a unique belt retraction braking system.
- **Rubberized Base**
 To protect flooring, all bases come with a standard non-marking rubberized bottom.
- **Assembly**
 Every Beltrac post can be factory assembled or shipped unassembled. On site assembly is made easy with a simple twist of a key (included). Connection assembly is Patent pending.

SLOW RETRACT MECHANISM

Beltrac's belt retracts slowly and safely every time thanks to our unique centrifugal belt-braking mechanism.

All Beltrac posts are designed and built in the U.S.A.

921 LITERATURE HOLDER

Puts your 4" wide pamphlets right in line with your customers. Easily attaches to any Beltrac post groove without fasteners.

Beltrac® 3000 Posts

4-WAY RECEPTACLE

Beltrac's patented integral "dove tail" receptacles make every post a standard 4-way intersection.

910LK BELTLOC™

Beltrac's exclusive Beltloc option is a fully automatic metal locking system that prevents accidental release of belts. Beltloc™ will also securely lock signs in place.

3011 WALL RECEPTACLE

Post-to-wall configurations are possible with the installation of our wall receptacle.

RMECH7 REPLACEMENT MECHANISM

Beltrac's mechanism is easy to replace and allows you to change belt colors or messages without changing the entire post.

Lavi Industries' Privacy Booths are designed to give you maximum privacy in a variety of settings. One of the most popular settings is at airports. These "portable rooms" are made from our Beltrac posts and come in opaque fabric. The "Rip-Stop Nylon" material is rip resistant, fire retardant and comes in matte black. Privacy Booths are easy to maneuver from one location to another depending on your security needs.

Beltrac Swing Gates

In a world where security is a top concern, Lavi has developed portable swinging gates that visually alert and block the public from potentially unsafe or restricted areas. The spring loaded gate is easily attached to any Beltrac® post to create an instant access gate in a matter of minutes.

PART NUMBER	DESCRIPTION
3000GATE/1L	Left Swinging Gate
3000GATE/1R	Right Swinging Gate
3000GATE/2	Double Swinging Gates

Back View

The gate panels are constructed from black durable plastic coated foam board and can be silkscreened with messages on both sides.

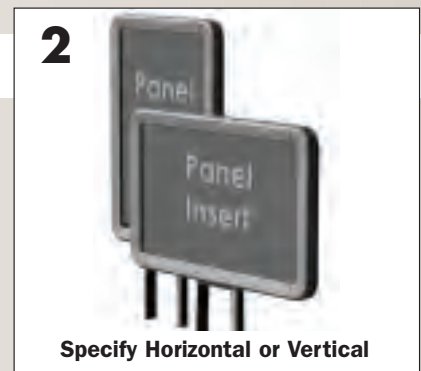

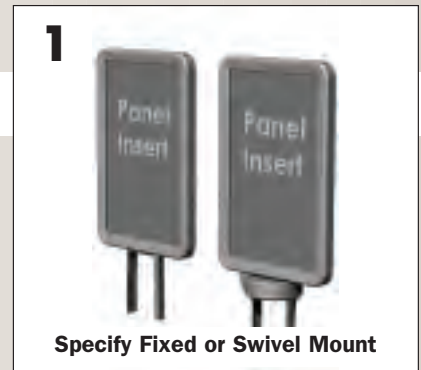

Radius Corner Sign Frames

Our sign frames feature smooth radius corners that eliminate sharp edges near your customers.

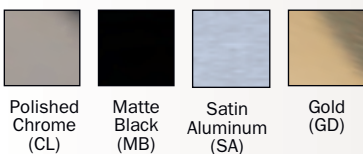

Sign frame ordering is as easy as 1 - 2 - 3

1111SW
Sign Clip on 8-way swivel bracket. (Graphics and acrylics are sold separately.)

Lavi Industries offers a wide variety of sign frame sizes and options. All of our frames, in combination with Beltrac's exclusive Beltloc™ option, provide tamperproof signage. Two clear acrylic panels are included with the frame. Our 22" x 28" sign frame is the strongest frame this size in the industry.

OUTDOOR BARRICADE

Outdoor barricades are always needed in areas such as parking lots and near ticket lines. Lavi offers durable barricades that can easily withstand the natural element. Available in 6' or 8' lengths and 45" high.

Directrac® Sign Stands

Changing media, posters or signs, takes only seconds with Directrac's removable inner cartridge which easily slides out from the frame's side door. The light-weight, removable cartridge is available in a variety of options, including changeable letters, strip channels and a poster-holder which attaches posters and signs on both sides with a spring-loaded clip mount.

Directrac® is available in both free-standing or wall-mountable versions with a variety of finishes to fit any décor. Standard size is 22"x 28". Other sizes can be accommodated.

US Patent No. 5,987,794. Directrac is a registered trademark of Lavi Industries.

Directrac Sign Stand integrates changeable cartridges in a variety of media

POSTER DISPLAY CARTRIDGE

Our poster display cartridge utilizes spring-loaded clip mounts to securely hold posters in place with ease. Available with any media on reverse side.

CHANGEABLE LETTER CARTRIDGE

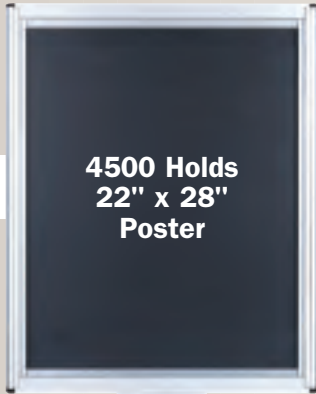

The changeable letter cartridge is perfect for continual change in messaging with its grooved panel and plastic letters. Available with poster display board on reverse side.

STRIP CHANNEL CARTRIDGE

With the strip-channel cartridge you have simple directional messaging. Available with poster display board on reverse side.

NeXtrac™ In-Line Retail System

As a result of listening to our customers, we called upon our expertise in public guidance to blend the category concept with merchandising and retail design. Lavi Industries proudly offers NeXtrac™, the in-line retail system for impulse sales.

The NeXtrac™ retail system is based on our Beltrac posts and is compatible with most major merchandising hardware systems, practically eliminating the need to purchase additional components. The system's flexibility, ease of configuring, rugged construction and low maintenance enhance cost effectiveness. We designed NeXtrac™ in cooperation with retail fixture specialists to better serve your needs.

Let NeXtrac™ transform your queuing floor space into a virtual store!

Signage

How Does It Work?

The dovetail grooves in our Beltrac® 3000 posts are the key to creating a NeXtrac™ system. These grooves provide easy assembly when adding a panel, table, rail, display tray or signage.

With a simple twist of the wrist, the connectors are tightened into the dovetail groove of a Beltrac post.

50-GCA200 / 50-GCA400 **ADJUSTABLE CONNECTORS**

Adjustable grip connectors allow for easy assembly when connecting a panel, frame or wire grid to any Beltrac® 3000 post. We offer both a standard 2" grip connector and a 2" hinge grip connector which allows for flexibility when setting up your display. These are available in Satin Aluminum(C) or Matte Black(MB) Anodized finishes.

50-3000SA
Beltrac® 3000
Shown in Satin Aluminum.

Rigid Rails

Rigid Rails provide a structural option for your public guidance needs. These rails allow for easy merchandising and are designed with flexibility in mind.

Not only do the rails give your queuing line a unique appearance, they allow you the freedom to hang merchandise, literature holders and shelves directly onto the rails.

All NeXtrac™ components work with our Beltrac® 3000 Posts.

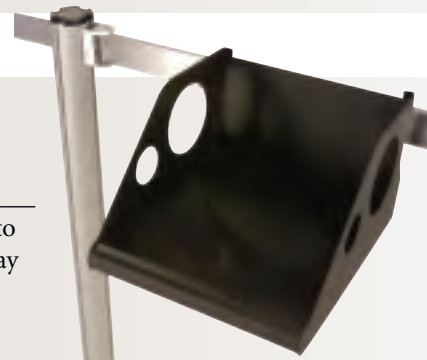

FLEXIBILITY

The special hinge connectors on our Rigid Rails were designed to allow for 90 degree angles.

807236 6" Hooks

Simply place hooks onto the Rigid Rails to display your merchandise.

20-AC100 SHELF

Add shelves to your queuing line for additional merchandising opportunities. 12" x 12" Available in Lido-Tone® Finishes.

SIGNAGE

Add signage for branding or other messaging purposes.

50-CRA100/4 CURVED RIGID RAILS

For a contemporary look utilize our curved Rigid Rails to enhance your queuing line.

50-SWFA105
FRAMED SLAT WALL PANEL

A double sided 47" x 36" framed aluminum slat wall panel with grip connectors that quickly and easily attaches to any Beltrac® 3000 post. This product is light weight, waterproof and easy to clean. The slat wall is currently available in Satin Aluminum finish with matching Satin Aluminum(C) frame or Wrinkle Black(WB) frame. (Custom sizes available upon request.)

50-NX100
FRAMED WIRE GRID PANEL

A double sided 48" x 30-1/2" framed wire grid panel with grip connectors that quickly and easily attaches to any Beltrac® 3000 post. The wire grid accommodates most standard hook and shelving accessories. The wire grid is currently available in Gray(GY) or Matte Black(MB) finishes with matching frames.

50-4612
QUICKCLIP™ FRAME PANEL

You can quickly and easily create exciting new imagery with our Quickclip Poster Frame. The 47" x 35" frame consists of four hinged sides that simply flip open to allow for graphics to be easily inserted. The frame with our grip connectors which are included, is double-sided for graphics on both sides of your queuing line. The QuickClip™ Panel is currently available in Satin Aluminum(SA) or Wrinkle Black(WB) finishes.

50-BTA107/4
IN-LINE TABLE

Lavi Industries offers an In-Line Table that is sturdy and elegantly designed. By providing a writing surface, your customers can easily complete necessary paperwork before they reach the counter, which will increase customer flow. In-Line Tables are shipped assembled with connectors that easily attach to any Beltrac® 3000 posts. The tables are 12" x 47-3/4" and offered in Dark Gray(DG) and Birchwood(BW) finishes.

50-BTA106

With optional pen holder.

Surfaces and Merchandisers

50-NX102

SLAT WALL GRID PANEL

This 4' x 4' slat wall grid panel attaches to any Beltrac® 3000 post with our grip connectors which are included. The wire grid is currently available in Satin Aluminum(C) or Matte Black(MB) finishes.

As Shown: with In-Line Table use part number 50-FP300S/4B.

FRAMED PANEL

The framed panel which includes our grip connectors, is an excellent method to display advertisements, logos and other messaging. Let our in-house art department produce your posters! Inserts available in clear or colored acrylic and vinyl coated foam core. Please see Page 23 under Post and Panel System for frame sizes.

DISPLAY TRAYS

Tray Shelves are an elegant and contemporary method of displaying merchandise on a Beltrac® 3000 post. The trays are 1/2" clear acrylic and are ready to install with the bracket and Grip Connector. Brackets are available in all Lido-Tone® Finishes.

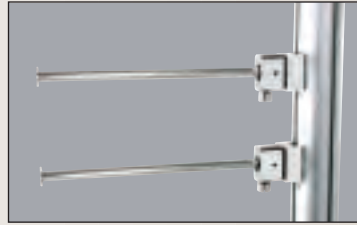

- 80-PA101/CL – Full Round Tray, 13-1/2" Diameter
- 80-PA102/CL – Half Round Tray, 8-1/2" W x 10-1/4" D
- 80-PA103/CL – Quarter Round Tray, 18-1/2"W x 12-7/8"D

Banners and Signs

50-BRA100/C/PR BANNER ARM ASSEMBLY

Our adjustable Banner Arm Assembly can be attached to any Beltrac® 3000 post to display your banner or flag assembly. They are sold in pairs and are available in Satin Aluminum(C) finish. Banners sold separately.

50-1138H STREET SIGN FRAME

Grab your customer's attention by using Street Signs. Street Signs easily attach to a post by attaching the grip connector into the dovetail groove on a Beltrac® 3000 post. They are 5" x 23" and are shipped assembled with two 1/8" clear acrylic panels. These signs are doubled faced allowing you to display media on both sides of the sign. Graphics are sold separately.

FA100 VERTICAL SIGN CLIPS

Vertical Sign Clips allow you the freedom to position a sign to any desired height on a Beltrac® 3000 post. These clips are designed to hold 3/8" acrylic panels in standard sizes of 3 1/2" x 5 1/2" and 7" x 11". Select any combination of connector and clip; Grip Connectors – Satin Aluminum(SA) or Matte Black(MB), Sign Clips – Polished Stainless Steel (40) or Satin Stainless Steel (44). Acrylic panels and artwork sold separately.

RIGID RAIL SIGNAGE

These framed signs are available in custom sizes and mount onto the Rigid Rail Assembly. Graphics sold separately.

Materials:

Lavi Industries utilizes premium materials for architectural interiors. Our products are designed to meet most building codes.

Solid brass and stainless steel are our choice materials for quality and durability. We finish these metals in-house, to maintain rigid quality control.

Warranty

Our products carry a limited warranty against defects and failure. Please refer to our current Price List for warranty details.

Ordering Information

1. Part Numbers and Finish Designation

When ordering, please use finish prefix as specified in the Materials and Finishes chart below.

Example:

10-2010 = **Polished Chrome** Regal Traditional Post.

40-41200 = **Polished Stainless Steel**
Beltrac Infinity¹²™ Post.

50-4500GD = **Bright Anodized Aluminum**
Gold Directrac® Post.

2. Drawings

Our engineering department will be happy to assist you with your specification requirements. Drawings of our products are available as needed. We can generate CAD drawings for your specific job, please consult us for details.

Lido-Tone®

Lido-Tone powder coating is highly durable, as well as decorative. This two coat finish combines the outstanding chemical and mechanical properties of epoxies with a wide variety of colors and surface textures. When an exterior application is specified, a polyester-based coating will be utilized. See Lido-Tone standard color chart below. Custom colors and finishes are available. Please consult with your Sales Executive.
