Die Plate Dater

This die cast, rugged, die plate dater is assembled on three flat bands. The first band contains the months; the second band contains the days (1 – 31); and the third band contains seven consecutive years, A.M., and P.M.

The date is centered on the die plate as shown in the impressions. Customizable text can be used for any of the die plate sizes listed below.

Bands turn easily on the wide flanged, self aligning wheels as pictured.

No. 50 Die Plate Daters are a necessity in banks, insurance companies, offices, shops, factories, stores and companies of all types.

Suitable for filing, billing, posting, crediting, paying, receiving, shipping, approving, inspecting and processing of papers of all types.

When maximum economy must be considered and maximum service is a necessity, select the No. 50 dater.

AVAILABLE IN THE FOLLOWING SIZES

- No. 11 $\frac{3}{8}$ " x 1 $\frac{3}{4}$ "
- No. 21 $\frac{1}{2}$ " x 2"
- No. 31 $\frac{1}{2}$ " x 2 $\frac{1}{2}$ "
- No. 41 $\frac{1}{8}$ " x 2 $\frac{3}{4}$ " (Oval)
- No. 72" x 3"
- No. 82" x 2"
- No. 92" Diameter (Round)

Also available with Spanish Dates

No. 9, 2" DIA. DIE

No. 2, 1 $\frac{1}{2}$ x 2"

Supreme

Dater

The unique design of the Supreme type band dater eliminates the risk of bands breaking due to tension. Any rubber die can be attached to the die plate in the sizes listed below.

All dates are centered and perfectly aligned by a close fitting slot in the die plate which allows for additional copy space. To change the date, press the monobutton release to open the die plate, insert pencil or stylus and revolve bands to desired date, snap die plate shut and your Supreme Dater is ready for use.

The Supreme Die Plate Dater is a durable, precision made product featuring the structural strength necessary to withstand heavy duty service. The striking appearance and sturdy construction are apparent at a glance.

Vulcanized rubber date bands and the monobutton release assure ease of operation and carefree service.

AVAILABLE IN THE FOLLOWING SIZES

- No. 21½" x 2"
- No. 42" x 2"
- No. 5-12 Hour1⅞" DIA. DIE
- No. 5-24 Hour1⅞" DIA. DIE

No. 2, 1½ x 2"

No. 4, 2" x 2"

No. 5, 1⅞" DIA. DIE

Albany

Dater

For general use in factories, offices and stores, the Albany dater is our most inexpensive die plate dater. The Albany dater has resilient cushion and sharp, deep face characters on the date bands as featured in our most expensive daters. These daters feature heavy, plated steel frames and knurled wheels for turning date bands.

CHOOSE FROM 5 DIE PLATE SIZES

- No. 11¼" x 2"

Vertical File Numberers

Designed for use with open shelf, vertical filing systems, these manual numbering stamps excel. They print figures in a vertical arrangement, as opposed to the more typical horizontal style numberer. Available in three stock sizes as well as semi-stock assemblies with up to the maximum number of bands shown in scale. These distinctive band stamps can also be fitted with letter or special bands when required. All bands are made with strong, vulcanized rubber featuring deep molded characters, ensuring crisp and clear impressions.

Alphabet Stamps or Alphabet and Figure Stamps

Alphabet and Alphabet/Figure stamps feature bands that revolve quickly on knurled wheels to spell out any word, figure or word and figure combination that the number of bands on the stamp allows. Each Alphabet and Alphabet Figure band contains 28 characters as shown in the layout and can even be supplied with special bands if required. These stamps are also available as alphanumeric, such as AAG and AAR.

Additional sizes available. Please contact customer service for more details.

Pullman

Attachments^{Special Die-Plates}

These specially manufactured die plates are created when the stock die plate dimensions will not fit the customer's needs. The size and dimensions are variable, depending on need. The layout slot (where the date bands settle into the plate) can be located anywhere on the die plate, again based on the customer's wishes. This is known as an "off-center slot".

As a side note, die plates can be created with an optional metal channel for a rubber date set for an additional cost. Please speak with Customer Service about this option.

Pullman

Extension Frame

The Pullman Extension Frame is a specialty piece designed to create a band layout that exceeds the normal possibilities within a given Pullman stamp. Please keep in mind that

extension frames can only be used with Pullman.

Pullman

Tandem

The Pullman Tandem attachment combines two to four Pullmans together with either a top die plate or a top and bottom die plate. Please see picture for layout. This gives the user the ability to have multiple dates (or numberers), all connected with one sturdy wooden handle.

Pullman

Offset Bracket

These die plates are specially manufactured to be attached on a Pullman stamp when a standard Pullman die plate will not work. One example of a stamp that could take advantage of this attachment is the BRC Brooklyn Dater. Please note that the die plate can only be attached above or below.

Cooke

Rotary Daters

These daters are a must-have for banks, manufacturing facilities and retail stores alike. Both economical and efficient, there are no bands to break, and the day date is easily changed with a simple turn of the dial. The Cooke Rotary Dater is furnished with a complete set of month and year dates. Complete date sorts for the word dater are inserted in the type slot provided.

No.4

No.22

Cooke

Time Stamps

Make efficient use of your time with a Cooke Time Stamp. This stamp is an indispensable tool for those sorting and recording the receipt of mail, packages and parcels, as well as important documents.

Print the time to the nearest quarter hour, date and identification or any desired copy on a single impression. Also available in No. 2-24 hour.

No. 1 12 hr.

Self-Inking Line Daters

The Comet Self-Inking Line Dater employs a fluid, smooth stamping action designed to help alleviate the fatigue associated with heavy use. The speedy and easy operation will please all users in activities such as dating office forms, letters purchase orders and production forms or materials. Made from heavy duty vulcanized rubber, all bands have deep-face characters designed for heavy usage. The frames are made from gleaming chrome-plated solid steel. These line daters print Months, Days and Years.

Comet

Local Dater

The Comet Local Dater is ideal so that a custom message can be added before, after or in the center of the dater or numberer assembly. The wording added is up to you, and conveniently gives you the ability to turn an otherwise ordinary line dater into a much more useful, yet still efficient, stamping device. Bridge is 5/16" in height

Comet

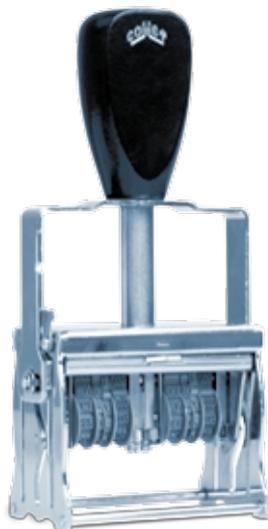

Double Daters

Utilizing a smooth, easy to use operation, the Comet Double Dater allows the user to stamp two separate dates, side by side horizontally. There is also room for customized dies above and below the date spots, giving the user the option of labeling the use of the two dates. This stamp is very useful for manufacturing, law offices and administrative work.

IN/OUT PRODUCTION

Line Numberers

Precision made parts and heavy-duty construction go into the Comet Self-Inking Line Numberer, ensuring long and continuous service. Designed for heavy use, this stamp will give thousands of perfect impressions.

These numberers' bands are available in a full range of sizes, as shown below, in either Roman or Gothic type styles. Self-contained ink pad detaches for easy re-inking. Larger sizes are available as the Comet Verilarge Self-Inking Line Numberers on the following page.

CLN 0	CLXCN 0	CLN 1	CLXCN 1	CLXCN 2	CLN 2

Verilarge Line Numberers

Created for those who need to mark big figures with self-inking capabilities, the Comet Verilarge Line Numberer comes with large band sizes, starting with CVN #2 $\frac{1}{2}$ = $\frac{1}{4}$ " and as large as CVXCN #4 = $\frac{1}{2}$ ". Please see below for the full range of large sizes available.

Sturdy, durable and attractive chrome-plated steel frames can handle up to 15 easily interchangeable bands. Numberers are available with either ROMAN, CVN style or GOTHIC CVXCN stock figure and letter bands.

CVN #2 $\frac{1}{2}$ = $\frac{1}{4}$ "

1 2 3 4 5 6 7 8

CVXCN #2 $\frac{1}{2}$ = $\frac{1}{4}$ "

Self-Inking Alphabet Stamps

These alphabet stamps use bands that easily revolve on knurled metal wheels to any desired character. Heavy duty chrome-plated steel frames use pivot bearings, to ensure efficient ease of use. The ink pads snap out easily for convenient re-inking.

Please note that Comet Alphabet bands are not interchangeable with Pullman Bands, and are only available in sizes 0 & 1.

CARMEN-BRONSON CO.

CPL No. 51

No. 51 Time Stamps

Strong and durable, these stamps assure fast and economical impressions of the date, time and any other wording desired. Comet No. 51 Time Stamps are highly recommended for recording these pieces of information on such items as orders, correspondence, mail, receiving and shipping records, production forms, tickets, etc. Slider bar adjusts time as seen below.

Time, date and wording stamp simultaneously, and the entire printing die is re-inked after each impression made. This ensures maximum speed and accurate, while maintaining accurate and legible impressions.

Vertical File Self-Inking Numberers

Arranged vertically rather than horizontally, these numberers are ideal for numbering or coding in production, shipping, filing, receiving, etc. Chrome-plated steel frames encase the band assembly. Bands are made from strong vulcanized rubber. Knurled wheels make the bands easy to adjust. Ink pads are easy to snap out and re-ink.

Special bands can be substituted for the stock figure band.

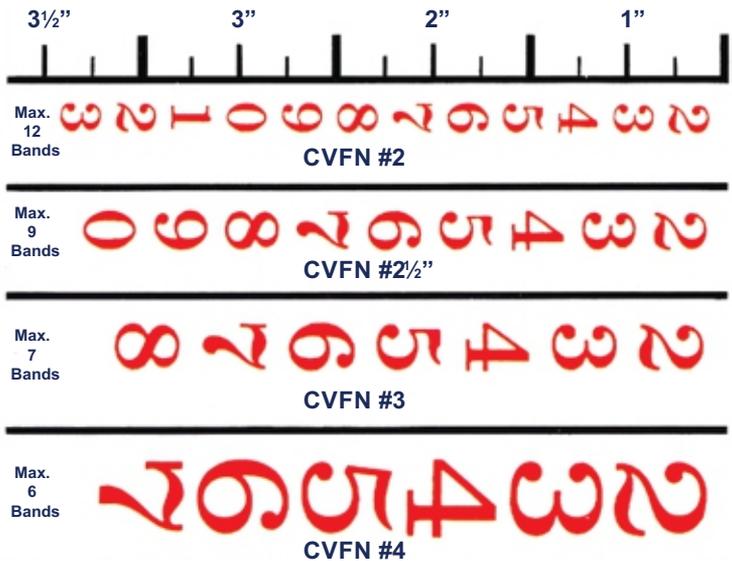

Available only in sizes and styles as shown below, unless ordered with special bands.

Layout shows exact characters on each band.

Selection chart shows exact spacing, size of characters, and length of impression.

Rubber Pencil Cap Caps

A low-cost and speedy option is the Rubber Pencil Cap stamp. Designed to fit snug on the end of a pencil, these stamps are ideal for initials, approving and auditing use. These stamps are made in 4 distinct sizes and types.

PCA No. 1

Most diversified selection of styles offered. Illustrations can be adapted to your requirements. Any single letter, figure, or combination of both which can be fitted into space of $\frac{1}{2}$ in. diameter. Priced attractively.

PCB No. 2

This model pencil cap has all the features of the PCA plus larger capacity of $\frac{3}{8}$ in. diameter. Supplied with any combination of letters or figures or either, to fit into space shown at a surprisingly low price.

PCK No. 3

For those requiring a square or rectangular border or copy. Maximum length of copy $\frac{1}{2}$ in. Available with any single letter or figure or any combination of both, space permitting. Special wording or designs can be supplied to fit these caps.

PCL No. 4

Largest rectangular size we can furnish. Maximum length of copy $\frac{5}{16}$ in. Furnished with any single letter or figure or combination of both, space permitting. Any made-to-order copy or design can be supplied to fit cap shown.

Atlas

Pocket Stamps

Convenient and easy, the Atlas Pocket Stamp can contain the same information you already have on your desk. They have a special Levertop, which is easily grasped by the fingers and prevents the case from separating when not in use. Adding to these stamps' quality is the self-contained ink pad, eliminating the need to also carry around an ink pad.

No. 1 - $\frac{5}{8}$ " x $2\frac{3}{16}$ "

Hercules

Pocket Stamps

These convenient pocket stamps are available in chrome plated steel and feature fold up sides to be used as a handle. These also contain an ink pad, so there is no need to bring an extra with you. Please designate which size and color preferred when ordering.

035190 Hercules #1 - $2\frac{5}{16}$ " x $\frac{5}{16}$ " with rounded corners.

035191 Hercules #2 - $2\frac{5}{16}$ " x 1" with square corners.

Inspector Stamps

Inspector stamps are designed for factory or office use. Made entirely of metal with plastic cap. Includes self-contained ink pad. Available in two sizes.

Atlas

Desk Stamp Rack

Attractive in appearance, these stamp racks provide efficient access to rubber stamps, saving valuable desk space. Solid wooden base lessens the possibility of tipping the rack, even when filled with stamps. The Atlas Desk Stamp Rack is available in three economical and convenient sizes, ranging from holding 12 stamps up to 24 stamps.

Size	Holds	Dimensions	Weight
No. 1	12 Stamps	11" x 5½"	1½ lbs.
No. 2	18 Stamps	15" x 5½"	2 lbs.
No. 3	24 Stamps	16½" x 5½"	2lbs., 12oz.

Cosco

Strip Rack

Strip racks are known for their high-quality all-metal builds, appealing to those looking for a reliable and economical storage solution. Each rack can be mounted solo, end-to-end, or in tiers, depending on the arrangement desired. Available in capacities of 3, 6, 9 or 12, these racks have screw holes drilled into either end for easy mounting.

Stamp Racks

With 3 distinct designs available, you are sure to find a stamp rack suitable for your stamp storage needs.

Revolving Standard Castor Racks –

These racks are made entirely of metal, and consist of a base, extension rods, and one or more wheels, each capable of holding 6, 8, 10 or 12 stamps.

Capping off the centered rod is a top stud. The wheels have spring metal clips, which securely hold the stamp handles in place.

Sta-tite Cushion

The Sta-Tite marking system is designed for manual or machine usage. This cushion base is cast from rubber in one solid piece, and is available in the following sizes: 8" x 11", 12" x 18" and 18" x 24". Easily accepting the Sta-Tite die by simple finger pressure, this system is easy to use economical.

In Stock

Commando Handle

For those desiring to give their stamps a polished, sophisticated look, the Commando Stamp Handle will more than suffice. Made of Black, Cherry or Walnut colored woods, the handle sizes can be ordered in any quantity and assortment of styles. Sizes range from No. 1 to No. 4, or $\frac{1}{4}$ " to $\frac{3}{8}$ ". One of the nicest features is the ability to customize these handles with a company name or the word FRONT for a nominal fee per thousand units ordered. Minimum quantity ordered is 1000; please contact Customer Service for further ordering details.

Boston Holder

These convenient holders fit snugly on the end of most pens and pencils and are designed to hold solid rubber type dies, solid rubber type dates or solid rubber logotypes. These holders are essential for anyone using intermittent to constant initialing or dating in confined impression spaces.
