Re: Enthone Thermal Ink product discontinuations

Dear Valued Customer,

The following Enthone Marking Ink and Catalyst products are being discontinued. This is due to the cancelation of pigments, which are critical raw materials that are no longer available from our supply chain partners.

MacDermid Alpha has not been able to secure additional or qualified replacement raw materials to sustain supply beyond our current inventory. We do not have replacement or alternative products for the thermal ink products being discontinued below.

Product	Part#	Status	Invnentory
Enthone 50-508BR	135689-0001	No longer available – Discontinued	None
Enthone M-5-N	135571-0006	Current inventory lot expiration 03/19/27	864oz
Enthone 50-206BR	135655-0001	Current invenotry lot expiration 05/08/27	24qt.
Enhtone 50-507R	135686-0001	Current inventory lot expiration 05/25/27	72qt.
Enthone 50-202BR	135652-0001	Current inventory lot expiration 09/23/27	30qt.
Enthone 50-300R	135662-0001	Current inventory lot expiration 07/10/27	24qt.
Enthone M-2-N	135446-0006	Current inventory lot expiration 09/22/27	1,440oz
Enthone 50-301R	211592-0001	Current inventory lot expiration 11/05/27	54qt.
Enthone M-4-N	135566-0006	Current inventory lot expiration 12/03/27	720oz
Enthone Catalyst 45	135319.0001A & C	Current inventory lot expiration 12/03/27	37qt.

MacDermid Alpha is committed to providing products with the highest quality and service the industry has come to expect with our marking ink products. We regret any inconvenience this may cause.

We thank you for your current and continued business and also understand you may have further questions. Please do not hesitate to contact me.

Regards,
