

# ColorHues™

ColorHues™ lightweight cell cast acrylic signage material from Rowmark exudes brilliant colors with the smooth, clean look of glass. The material is well-suited for tactile signage applications or is easily embellished with stand-offs, mounting fixtures or other display hardware.

CH341-500 ■ Ice Blue (Translucent)	CH341-900 ■ Glass Green (Translucent)	CH3X1-100 ■ Clear (Translucent)	CH3X1-101 Clear Matte (Translucent)	CH341-211 Phantom (Translucent)	CH341-611 Cherry Blossom (Translucent)

\* Natural variation in color is to be expected with this product.

\* Cast acrylics have thickness variations that may present difficulties in applications where thickness tolerance is important (i.e. fitting into extrusions, thermoforming applications where walls must maintain uniform thickness and assembly of complex structures). Remember to check gauge when non-contact engraving takes place, and to periodically re-check focal lengths when laser engraving. In some cases, thickness variations may require the operator to make multiple passes during laser engraving.
