Material Safety Data Sheet (Election Ink/Finger Stain)

SECTION 1. Identification	
Product identifier	
Product indentification	FS-STAIN-INK
Product name	Election Ink/Finger Stain

Relevant identified uses of the substance or mixture and uses advised against

Identified uses

Skin Staining Ink

Details of the supplier of the safety data sheet

Company

The Hitt Companies, Inc. 3231 W. MacArthur Blvd. Santa Ana, CA 92704 USA

Emergency Phone Number (24 Hour): Chemtrec 1-800-969-6699

SECTION 2. Hazards identification GHS Classification Eye irritation, Category 2, H319 For the full text of the H-Statements mentioned in this Section, see Section 16.

GHS-Labeling

Hazardpictograms

Signal Word Warning

Hazard Statements H319 Causes serious eye irritation.

Precautionary Statements

P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses. If present and easy to d If present and easy to do. Continue rinsing.

MATERIAL SAFETY DATA SHEET

SECTION 3. Composition/information	on ingredients
Formula	C,H,oO. (Hill)
CAS-No.	97-99-4
Molar mass	102.13 g/mol

Hazardous ingredients Chemical Name (Concentration) CAS-No. tetrahydrofurfuty!alcohol (>= 90 % - <= 100 %) 97-99-4

SECTION 4. First aid measures

Description of first-aid measures Inhalation After inhalation: fresh air.

Skin contact

After skin contact: wash off with plenty of water. Remove contaminated clothing.

Eye contact

After eye contact: rinse out with plenty of water. Call in ophthalmologist.

Ingestion

After swallowing: immediately make victim drink water (two glasses at most). Consult a physician.

Never give anything by mouth to an unconscious person.

Most important symptoms and effects, both acute and delayed irritant effects, narcosis

Indication of any immediate medical attention and special treatment needed No information available.

SECTION 5. Fire-fighting measures

Extinguishing media Suitable extinguishing media Water, Carbon dioxide (C02), Foam, Dry powder

Unsuitable extinguishing media For this substance/mixture no limitations of extinguishing agents are given.

Special hazards arising from the substance or mixture Combustible. Vapors are heavier than air and may spread along floors.

MATERIAL SAFETY DATA SHEET according to the Global Harmonized System

Forms explosive mixtures with air on intense heating. Development of hazardous combustion gases or vapors possible in the event of fire.

Advice for firefighters

Special protective equipment for fire-fighters In the event of fire, wear self-contained breathing apparatus.

Further infrmnation Prevent fire extinguishing water from contaminating surface water or the ground water system.

SECTION 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures Advice for non-emergency personnel: Do not breathe vapors, aerosols. Avoid substance contact. Ensure adequate ventilation. Evacuate the danger area, observe emergency procedures, consult an expert.

Advice for emergency responders: Protective equipment sea section 8.

Environmental precautions Do not empty into drains.

Methods and materials for containment and cleaning up

Covar drains. Collect, bind, and pump off spills.

Observe possible material restrictions (see sections 7 and 10).

Take up with liquid-absorbent material (e.g. Chemizorb®). Dispose of properly. Clean up affected area.

SECTION 7. Handling and storage

Precautions for safe handling Observe label precautions.

Conditions for safe storage, including any incompatibilities Tightly closed.

Stora at +15'C to +25°C (+59°F to +77°F).

SECTION 8. Exposure controls/personal protection

Exposure limit(s)

Contains no substances with occupational exposure limit values.

Engineering measures

Technical measures and appropriate working operations should be given priority over the use of personal protective equipment.

Individual protection measures

Protective clothing should be selected specifically for the workplace, depending on concentration and quantity of the hazardous substances handled. The chemical resistance of the protective equipment should be inquired at the respective supplier.

HygiBnemeasures

Change contaminated clothing. Application of skin- protective barrier cream recommended. Wash hands after working with substance.

MATERIAL SAFETY DATA SHEET according to the Global Harmonized System

Eye/face protection Safety glasses

Hand protection

Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.

Other protective equipment: protective clothing

Respiratory protection

required when vapors/aerosols are generated.

Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

SECTION 9. F	Physical a	and chei	mical p	roperties
--------------	------------	----------	---------	-----------

Physical state	liquid
Color	purple
Odor	odorless
Odor Threshold	not applicable
pН	No information available.
Melting point	< -80 °C
Boiling point/boiling range	352 °F (178 °C) at 1,013 hPa
Flash point	167 °F (75 °C) Method: open cup
Evaporation rate	No information available.
Flammability (solid, gas)	No information available.
Lower explosion limit	1.5 %(V)
Upper explosion limit	9.7 %(V)
Vapor pressure	1 hPa at 77 °F (25 °C)
Relative vapor density	3.5
Relative density	1.05 g/cm³ at 68 °F (20 °C)

Water solubility	at 68 °F (20 °C) soluble
Partition coefficient: n octanol/water	log Pow: -0.11 (calculated) Bioaccumulation is not expected (log Pow <1). (Lit.)
Autoignition temperature	No information available.
Decomposition temperature	No information available.
Viscosity, dynamic	6.24 mPa.s at 68 °F (20 °C)
Explosive properties	Not classified as explosive.
Ignition temperature	540 °F (282 °C)

SECTION 10. Stablity and reactivity

Reactivity

Forms explosive mixtures with air on intense heating.

Chemical stability

The product is chemically stable under standard ambient conditions (room temperature).

Possibility of hazardous reactions Risk of explosion with:

Risk of ignition or formation of inflammable gases or vapors with:

Oxidizing agents

Conditions to avoid Strong heating. A range from approx. 15 Kelvin below the flash point is to be rated as critical.

Incompatible materials rubber, various plastics

Hazardous decomposition products no information available

SECTION 11. Toxicological information

Information on toxicological effects Likely route of exposure Inhalation, Eye contact, Skin contact Acute oral toxicity LD50 rat: 1,600 mg/kg (RTECS) (Regulation (EC) No 1272/2008, Annex VI)

Symptoms: Irritation of mucous membranes Acute inhalaUon toxicity

Symptoms: Possible damages:, mucosal irritations Acute dennal toxicity absorption

Skininflation slight irritation

Eye initaUon rabbit Result: slight irritation (RTECS)

Causes serious eye irritation.

- SensiUzation Sensitization test: guinea pig Result: negative (HSDB)
- *Genotoxicity in vitro* Ames test Result: negative

(Lit.)

Specific target organ systemic toxicity-single exposure

The substance or mixture is not classified as specific target organ toxicant, single exposure.

Specific target organ systemic toxicity - repeated exposure

The substance or mixture is not classified as specific target organ toxicant, repeated exposure.

AspiraUon hazard

Regarding the available data the classification criteria are not fulfilled.

Carcinogenicity

IARC	No ingredient of this product present at levels greater than or
	equal to 0.1% is identified as probable, possible or confirmed
	human carcinogen by IARC.
OSHA	No ingredient of this product present at levels greater than or
	equal to 0.1% is identified as a carcinogen or potential
	carcinogen by OSHA.
NTP	No ingredient of this product present at levels greater than or
	equal to 0.1% is identified as a known or anticipated carcinogen
	by NTP.
ACGIH	No ingredient of this product present at levels greater than or
	equal to 0.1% is identified as a carcinogen or potential

carcinogen by ACGIH.

Further information Systemic effects: After absorption: narcosis, Lung edema Damage to: Liver, Kidney Handle in accordance with good industrial hygiene and safety practice.

SECTION 12. Ecological information

Ecotoxicity

Toxicity to bacteria microtox test EC50 Photobacterium phosphoreum: 1,600 mg/l; 15 min (Lit.)

Persistence and degradability Biodegradability 96.1 %; 5 d (HSDB) Readily biodegradable.

Bioaccumulative potential Partition coefficient: n-octanoVwater log Pow: -0.11 (calculated) Bioaccumulation is not expected (log Pow <1). (Lit.)

Mobility insoil No information available.

other adverse effects

SECTION 13. Disposal considerations

The information presented only applies to the material as supplied. The identification based on characteristic(s) or listing may not apply if the material has been used or otherwise contaminated. It is the responsibility of the waste generator to determine the toxicity and physical properties of the material generated to determine the proper waste identification and disposal methods in compliance with applicable regulations. Disposal should be in accordance with applicable regional, national and local laws and regulations.

SECTION 14. Transport information

Land transport (Don Not classified as dangerous in the meaning of transport regulations.

Air transport (IATA) Not classified as dangerous in the meaning of transport regulations.

Sea transport (IMDG)

Not classified as dangerous in the meaning of transport regulations.

MATERIAL SAFETY DATA SHEET according to the Global Harmonized System

SECTION 15. Regulatory United States of Americ Canada	
WHMIS Classificatio	n
B3	Combustible Liquid
D2B	Toxic Material Causing Other Toxic Effects
Combustib l e Liquid,	•
This product has been information required to	n classified according to the hazard criteria of the CPR and the MSDS contains all of the by the CPR.
Notification status	
TSCA:	On TSCA Inventory

DSL:

All components of this product are on the Canadian DSL.

SECTION 16. Other information

Training advice

Provide adequate information, instruction and training for operators.

Full text of H-Statements referred to under sections 2 and 3.

H319 Causes serious eye irritation.

Key or legend to abbreviations and acronyms used in the safety data sheet Used abbreviations and acronyms can be looked up at www.wikipedia.org.

Date of issue: 03/05/2013

The Information contained herein is based on the present state of our knowledge. It characterizes the product with regard to appropriate safety precautions. It does not represent a warranty of any product properties and we assume no liability for any loss or injury which may result from the use of this Information. Users should conduct their own investigations to determine the suitability of the information.
